

## Some publications of the Research Group in History of Mathematics at the University of Utrecht in 2019

- Viktor Blåsjö, Attitudes toward intuition on calculus textbooks, pp. 85-94 in K. Bjarnadóttir et. al., eds., “Dig where you stand”5: Proceedings of the Fifth International Conference on the History of Mathematics Education, September 19-22, 2017, at Utrecht University, The Netherlands, ISBN 978-908-236-796-6.
- Viktor Blåsjö, (trl.), Kirsti Andersen, *Optical Illusions in Rome: A Mathematical Travel Guide*, translated [from the Danish] and introduced by Viktor Blåsjö, MAA Press, 2019. <https://bookstore.ams.org/spec-99/> ISBN 1470452677, 9781470452674
- Jan P. Hogendijk, reviews in *Mathematical Reviews*: Rashed, Roshdi; Papadopoulos, Athanase *Menelaus’ Spherics. Early translation and al-Māhānī / al-Harawī’s version*. Dual Arabic-English text. *Scientia Graeco-Arabica*, 21. De Gruyter, Berlin, 2017. xiv+873 pp. ISBN: 978-3-11-056823-3; 978-3-11-056987-2 [MR3822368]; Elijor, Ofer; The Arabic tradition of Euclid’s *Elements* preserved in the Latin translation by Adelard of Bath and the Hebrew translation by Rabbi Jacob. *Historia Math.* 45 (2018), no. 2, 111130 [MR3802553];
